

love, we embrace our commitment
the residents of Oak Arbor.

There is no better way to make life meaningful than to create a comfortable, secure home where residents can experience the best life has to offer them. Oak Arbor at Mt. San Antonio Gardens welcomes residents with memory impairment who will benefit from the attention of devoted caregivers whose singular focus is to help them enjoy the highest quality of life possible.

Licensing & Accreditation

Serving seniors since 1961, Mt. San Antonio Gardens is a long-established Life Care community owned and operated by Congregational Homes, Inc., a nonprofit, public benefit corporation.

Mt. San Antonio Gardens is licensed by the California Department of Health Services and the California Department of Social Services. It is a member of  LeadingAge and LeadingAge California, the national and state organizations that represent not-for-profit senior care and service providers.

Providing accommodations and care to qualified older adults, Oak Arbor operates on a nondiscriminatory basis and offers equal treatment and access to eligible persons without regard to gender, sexual orientation, race, creed, religion, national origin or ancestry.

Oak Arbor
Memory Care

With compassion, integrity, and
to nurture a meaningful life for

Oak Arbor Memory Care at the Gardens

Oak Arbor is home to residents with dementia, dementia-related disorders, neuro-cognitive disorders and traumatic brain injury. Our staff has specific training in dementia

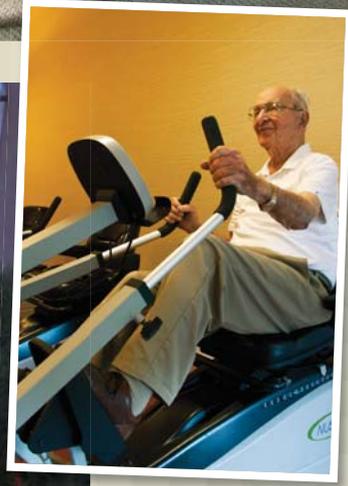

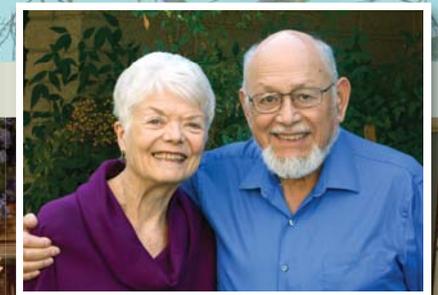

care and pursues continuing education to assure they remain current with advancements and best practices in memory care. Because our memory care community is small, we get to know each resident, like a family member, so that we can understand and tend to their individual needs. We encourage family involvement, while we remain responsible for their care. At Oak Arbor, residents pay an all-inclusive monthly rate.

Environment

Oak Arbor offers single-room homes, each with a private bath. A shared great room provides opportunities for group meals and other community engagement. Residents can enjoy the outdoors in a beautifully landscaped courtyard with a walking path, and the entire memory care community is secured. With the accompaniment of an available caregiver or family member, residents can also enjoy other facilities and activities elsewhere on the Gardens' 30-acre campus.

Honoring the person within

Maximizing the quality of life for our residents is our priority. We focus our plan of care and engagement on the whole person. We get to know their preferences so that we can anticipate their needs. We learn their life stories and discover the experiences and activities that bring each resident satisfaction and trigger happy memories. We join them in celebrating events and share their moments of joy. Our experienced staff brings clinical excellence, compassion and respect to each relationship as they manage our residents' overall well-being and everyday needs.

Life enrichment

Oak Arbor offers a spectrum of life enrichment opportunities to meet the cognitive, creative, physical and psycho-social needs of our residents. Choices are based on residents' individual interests, passions and abilities so that they experience personal fulfillment and remain as engaged as possible in community life.
