

a progressive alternative to
a unique home-like setting.

Harrison Villa Post-Acute Rehabilitation Services is a new approach to skilled nursing rehabilitative care that offers state-of-the-art therapies in a home-like, non-institutional setting. A dedicated team of rehabilitation specialists and care partners support the patients' daily needs, and family involvement and presence are welcome and encouraged. Mt. San Antonio Gardens is the only skilled nursing facility in California licensed to offer this progressive alternative to traditional post-acute rehabilitation, based on the groundbreaking Green House® concept.

Licensing

Serving seniors since 1961, Mt. San Antonio Gardens is a long-established Life Care community owned and operated by Congregational Homes, Inc., a nonprofit, public benefit corporation.

Mt. San Antonio Gardens is licensed by the California Department of Health Services and the California Department of Social Services. It is a member of LeadingAge and LeadingAge California, the national and state organizations that represent not-for-profit senior care and service providers.

Providing accommodations and care to qualified older adults, Harrison Villa operates on a nondiscriminatory basis and offers equal treatment and access to eligible persons without regard to gender, sexual orientation, race, creed, religion, national origin or ancestry.

Harrison Villa

Post-Acute Rehabilitation

Harrison Villa offers patients
post-acute rehabilitation in

friendships that can continue after they return home. By helping patients feel at home, the Green House model can actually help them rehabilitate faster. Because the Green House model is holistic, with living spaces resembling what patients will find in their own homes, every move is practice for the return home. Because the patients are on similar paths to recovery, they are able to share in their experiences and motivate one another.

A New Model for Post-Acute Rehabilitation

Functional, practical therapy is provided seven days a week to ensure maximum safety and success upon discharge. Patients practice activities of daily living with their core rehabilitation team in the common areas of the home, while more personal tasks such as bathing, dressing, and toileting are done in the privacy of their own bedroom and bathroom. The members of the house encourage each other during therapy sessions, discuss therapy goals and challenges over meals, and make

The Rehabilitation Team

Resident care is managed and coordinated by a multidisciplinary team consisting of:

- Physicians
- Registered nurses
- A clinical pharmacist
- Physical therapists
- Occupational therapists
- Registered dietician
- Recreation therapists
- A licensed social worker/discharge planner
- A speech therapist
- Certified nursing assistants (Care Partners)

Individualized Program

Everything that takes place at Harrison Villa Rehabilitation has a therapeutic purpose. Programs are tailored to each person's specific needs and areas of interest. Treatment is intense and short-term.

- Spa room
- On-site hair salon (including manicure/pedicure)
- Outdoor patios, restorative gardens
